

# MEDITECH Expanse TIP SHEET

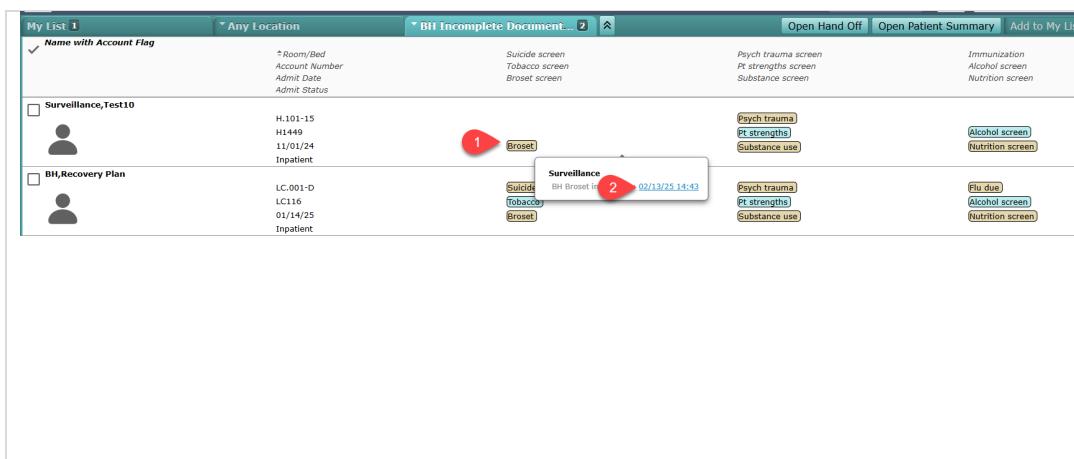

## Surveillance: Addition of Intervention Actions on the BH Incomplete Documentation Status Board

The “BH Incomplete Documentation” status board flags will have new actions added to them which link directly to the intervention where the documentation should be captured.

The status board can be accessed by BH nurses by going to Clinical – Patient Care Status Board – BH Incomplete Documentation.

Each flag represents an element of missing documentation. Click on the flag to launch to the surveillance overlay.

These changes will impact all flags on the BH Incomplete Documentation status board except for the immunization flag.

# CHG0432454–Add “Other” query to Behavioral Health Discharge w Parameters order

Changes go in effect 02/18/26

Behavioral Health Discharge Order with Parameters

Driving limitations

Smoking status for patients 13 years old or older

\* Alc/substance use interventions ordered at discharge

\* Discharge Parameters Other

\* Other discharge parameters

\* Notify attending when discharge parameter met Yes No

The "Other discharge parameters" field is highlighted with a red box.

- Add conditionally required query of “Other discharge parameters” that appears and is required with “Other” is selected as a Discharge Parameter

# Update PRN Reasons for Hypoglycemia

Expanse Pharmacy

EHR

Update

The Hypoglycemia 2025 ADA Standards for hospitalized patients have changed requiring an update to current PRN Reasons for hypoglycemia treatment.

Proposed Changes	
BG50	RETIRE
BG60	RETIRE
BG<54	Blood Glucose less than 54
BG54-69	Blood Glucose 54-69
BG70	Blood Glucose less than 70

BG<54 and BG54-69 have been added to the Corporate Standard PRN Reason dictionary. BG50 and BG60 will be retired on April 15, 2025. Order Strings and Order Sets will need to be updated to reflect these values prior to this date.
