Adult Opioid Induc Resp Depress

Protocol

</

- Add “Protocol” to end of Adult Opioid Induc Resp Depress.

Expanse Order Enhancements

SPONTANEOUS BREATHING TRIAL

(Category Change ONLY)

Changes go in effect **Nov 19, 2025**

The Spontaneous Breathing Trial order (SPONBRETRI.C.OM) is in the OM Category of "Nursing". For this order, the Respiratory Therapy team assesses ability to breathe with minimal or no vent support. RT documents the findings in the "RT Ventilator Weaning" intervention (12205611). Since this order is under the Category of "Nursing", it currently does not notify RT of the new order. It will be changed to the Category of "Respiratory OM", to correct the issue. NO OTHER CHANGES to this order. These changes were made in collaboration with the Corporate RT and Provider Product teams.
