Expanse Order Enhancements
## POST TRANSUFION LABS
*Changes go in effect **January 7, 2026***

HCA Healthcare®

For the order of **Post Transfusion Labs** (HHPOSTTRAN.C.OM), an issue was reported with the required query rules. In addition, by having a default comment inside the only comment box, it was preventing personalization of order sets. If that comment was changed in the set > the original default would override due to the default rule. It was also discovered the "Other" queries did were not attached. These changes were made in collaboration with the Corporate Service Lines and Provider Product teams.

ERROR -

If "Yes" is selected for "Platelets", the following query of "Timing of Platelets post transfusion" should become required. It is not.

CORRECTED –

When "Yes" is selected for "Platelets", the following query of "Timing of Platelets post transfusion" will now be required.

Post Transfusion Labs

Stat

☑ Routine

* Provider	Mt,Meditech
* Source	Department Process
H&H	Yes No
Timing of H&H post transfusion	
Platelets	Yes No
* Timing of Platelets post transfusion	
PT/INR	**Yes** No
* Timing of PT/INR post transfusion	
PTT	Yes No

ERROR -

If "Yes" is selected for "PT/INR", the following query of following query of "Timing of PT/INR post transfusion" query becomes required (correct).
HOWEVER > it is ALSO triggering/requiring the "Timing of Platelets post transfusion" (when it should NOT).

Post Transfusion Labs

* Provider	Mt,Meditech
* Source	Telephone Order Read-Back
H&H	Yes No
Timing of H&H post transfusion	
Platelets	Yes No
Timing of Platelets post transfusion	
PT/INR	**Yes** No
* Timing of PT/INR post transfusion	
PTT	Yes No

CORRECTED –

When "Yes" is selected for "PT/INR", ONLY the following query of following query of "Timing of PT/INR post transfusion" query becomes required.

The other query of "Timing of Platelets post transfusion" is no longer required.

H&H — [Yes] [No]

Timing of H&H post transfusion — Other

* Other timing of H&H post transfusion —

Platelets — [Yes] [No]

Timing of Platelets post transfusion —

PT/INR

ISSUE -

When "Other" was selected for ALL of the Timing queries > an additional query of "Other" with free-text option did not populate. This forced users to enter data in comments.

CORRECTED –

Free-text "Other" queries were added to each of the "Timing" queries. So if 'Other" is selected, the new queries will populate and become required.

Post Transfusion Labs

Field		
* Provider	Mt,Meditech	
* Source	Department Process	
H&H	Yes / No	
Timing of H&H post transfusion		
Platelets	Yes / No	
* Timing of Platelets post transfusion		
PT/INR	**Yes** / No	
* Timing of PT/INR post transfusion		
PTT	Yes / No	
Timing of PTT		
Fibrinogen	Yes / No	
Timing of Fibrinogen post transfusion		
CBC	Yes / No	
Timing of CBC post transfusion		
Post Transfusion Labs Comment	Nurse to order post transfusion labs as indicated	

ISSUE -

Buy having this statement default into the comment via a rule > it overrides any personalization from the order sets.

Post Transfusion Labs

Field		
* Timing of PT/INR post transfusion		
PTT	Yes / No	
Timing of PTT		
Fibrinogen	Yes / No	
Timing of Fibrinogen post transfusion		
CBC	Yes / No	
Timing of CBC post transfusion		
-	Nurse to order post transfusion labs as indicated.	
Post transfusion labs comment		

CORRECTED –

There is now an EDITABLE label-type query to allow for the message.

There is an ADDITIONAL Comment query, free of text, that can now be used to personalize order sets.

ORDER/APPLY WEARABLE CARDIAC DEFIBRILLATOR

*Changes go in effect **Jan 7, 2026***

The **Order/Apply Wearable Cardiac Defibrillator** (ORDAPPLIVT.C.OM) screen only had options for one type. We have updated the screen to allow for more than one brand name with settings. These changes were made in collaboration with the Corporate Service Lines and Provider Product teams.

Order/Apply Wearable Cardiac Defibrillator (ORDAPPLIVT.C.OM)

NEW SCREEN: HCAOMORAPLF0002

First 3 queries re-sorted, but no changes to the options/functions:
Reason for Use
Estimated Start Date
Duration

Brand Name:
Option added of "Assure"

* Energy level	150 Joules, all 5 shocks
* VT HR threshold	150 bpm
VF HR threshold	
Order/Apply life vest comment	

When ASSURE is selected, 2 additional queries populate (and are required). There is a default entered, but there is also the option at the drop-down to select "Other".

NOTE: the default only works the FIRST time the option is selected. If it is clicked on, then changed to something else and back – it does not re-populate the default. The drop-down arrow would need to be used.

When LIFE VEST is selected, 2 additional queries populate (and are required). There is a default entered, but there is also the option at the drop-down to select "Other".

NOTE: the default only works the FIRST time the option is selected. If it is clicked on, then changed to something else and back – it does not re-populate the default. The drop-down arrow would need to be used.

No other changes to the order/screen/queries.
