ROLLING GO-LIVE
OCTOBER

Disposable BP Cuff Conversion: GE -> ROI/Regard

NCDV go-live throughout October with rolling facility start dates

HCA is transitioning all GE disposable blood pressure cuffs to ROI/Regard disposable cuffs across the North Carolina Division. Facility conversions will occur on rolling dates throughout October.

Blood Pressure Cuffs

The Regard Blood Pressure Cuff Portfolio is highly accurate and designed with patient comfort in mind. The cuffs are color-coded for quick identification and adaptable to monitors with one or two tubes.

The Regard Blood Pressure Cuffs Portfolio includes:

- » **ComfortCheck** Disposable Blood Pressure Cuffs offer patient comfort and reduce the risk of cross-contamination
- » **DuraCheck** Reusable Blood Pressure Cuffs are built to last with durable nylon material
- » **NeoCheck** Neonatal Disposable Blood Pressure Cuffs conform to the tiniest patients and are designed to last through their entire hospital stay

Connect Regard Blood Pressure Cuffs to NIBP monitors with speed and security. The new quick-connect adapter—available in single or dual-tube configurations—features a durable, streamlined design that delivers a guaranteed leak-free seal and effortless one-handed operation.

CURRENT STATE

BP monitors/hoses have distal GE BP cuff connections.

FUTURE STATE

Current hose connections will be changed/converted to accommodate ROI/Regard cuffs. GE and ROI cuffs are not interchangeable; both use proprietary connectors.

What staff and leaders should know

- Airline/ROI will support each facility conversion and change the BP cuff adaptors on affected monitors on the scheduled go-live day.
- Supply Chain will implement PAR-location changes as monitors are converted.
- Stock ROI cuffs are available through the NCD warehouse for go-live staging.
- Non-stock cuffs should be ordered directly through ROI/Regard as needed.

BEDSIDE TAKEAWAY: GE and ROI/Regard cuffs are not interchangeable. Use the cuff/connector appropriate for your facility after conversion.

Clinical Reminders

MISSION HOSPITAL ONLY
DCS

Mission Hospital- Discharge Courtesy Suite

HCA  Healthcare®

Please join us in the Discharge Courtesy Suite!

NURSING STAFF

Remember to explain to the patient and/or family member, the DCS process and why the DCS is the best option!

Our nurses are experts on discharging patients. We want to ensure you have all the things your doctor recommends for a safe and successful discharge.

A Discharge Nurse will:

- Research your medical information and create a discharge packet.
- Confirm that follow-up appointments and home health services are arranged. (If required)
- Ensure that all your medications and/or equipment are ordered and delivered before discharge.
- Determine when your next dose of medications is due.
- Review educational material related to your medical needs and recovery.
- Arrange transportation if all other options are exhausted.

The RN will then educate you on any details your doctor wants you to know, along with any expectations and/or restrictions for a speedy recovery.

Let your nurse know upon introduction if valet services were used, so we can arrange for the car to be at Entrance 5 at time of discharge.

Please let the staff know...

- If you would like any refreshments while you wait.
- Require any as needed medications.
- Have any IVs that need to be removed.

**Thank you for allowing the DCS to be the last stop of your hospital stay here at
Mission Health!**
