Ongoing Competencies

Trauma Education:
What's New In Endpoints of Resuscitation

When: Thursday, November 19, 2026, 3:00pm - 4:00pm CST
Registration Deadline: **Tuesday, November 17, 2026**
Where: WebEx Live

Description: The purpose of this accredited continuing education activity is to assist the healthcare team in improving morbidity and mortality regarding care for trauma patients across the HCA Healthcare system.
Objectives: At the end of the accredited continuing education (CE) activity, the clinician will be able to:
1. Demonstrate how to define and monitor for shock.
2. Explain the elements of oxygen delivery.
3. Define how the cardiovascular system augment oxygen delivery when needed.
4. Summarize the definition of “fluid responsiveness.”
5. List contemporary methods to monitor resuscitation.
